Career Objective

Computer Science undergraduate at KL University with specialization in Cloud Native software engineering, with hands-on experience building full-stack and cloud-integrated systems. Proven ability to design scalable solutions using Java, Python, Kafka, and AWS. Seeking a Software Development Engineer role to contribute to impactful, large-scale products while continuously growing as an engineer.

Education

KL University, Vijayawada	2023 – 2027
B.Tech in Computer Science Engineering CGPA: 9.44	
Viva The School, Nambur	2021 – 2023
Intermediate (CBSE)- (MPC) 77.5%	
Nalanda Vidhya Nikaten, Vijayawada	2020 – 2021
SSC (CBSE) 70%	

Technical Skills

Programming: Java, C, Python

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Web: HTML, CSS, ReactJS

DevOps: Docker, GitHub, CI/CD

Database: MySQL

Projects

AI-Based Healthcare Revenue Cycle Prediction System | React + Spring Boot + MySQL+ ML model – Random Forest

- Developed a full-stack healthcare platform with role-based dashboards for patients, doctors, billing, insurance, and administrators
- Implemented JWT authentication, appointment booking, claims, billing, AI monitoring.
- Trained and integrated Random Forest models to predict claim denials, payment delays, and appointment no-shows through REST APIs.
- Achieved ~85% prediction accuracy while reducing manual claim validation time from 5–10 minutes to near-instant.

Med-Blink – Drug Distribution System | React + Spring Boot + MongoDB Atlas + AWS, Kafka, WebSockets, + Razor pay

- Built a **three-panel drug distribution platform** for customers, admins, and delivery partners.
- Implemented batch-based inventory management with nearest-expiry product selection.
- Enabled real-time order updates using **Kafka** and **WebSockets** with automated email alerts.
- Integrated Razor pay payments and deployed the system on AWS cloud infrastructure.

Certifications

- GitHub Foundations Certification
- AWS Certified Cloud practitioner

Soft Skills

Problem Solving | Logical Thinking | Team Collaboration | Adaptability
